„Connecting of Research and Business”

The Bridging Concept: so much remarkable technology has been developed in EU and other ambitious and competitive funding schemes , but much too little has been converted into products and commercially available services. Too few innovations have made their way into industry and have resulted in the creation of jobs and creation of wealth.

Keynote by

Mike Jones

CEO of MySpace

Mike Jones was most recently the CEO of failed social-network MySpace. But that's not what he's talking about now.
